

Nexa Classic Manual Dispenser

Dispenser to suit 1 L and 1.25 L Nexa pods

Features

- Nexa dispensers are easy to install, refill and clean, hygienic to use, efficiently delivering the exact volume of product required every time.
- Nexa dispensers evacuate up to 99% of product from the pods, typically leaving less than 1/10th of the residue of other product formats.
- Nexa dispensers have up to 44% longer battery life compared to comparable devices.
- Antimicrobial push bar contains silver phosphate to inhibit the growth of bacteria.
- The clear view window displays expiry date and product usage level to aid timely and easy replenishment.
- Universal fixing points matches most existing dispensers to reduce the need for drilling and damage to infrastructure.
- Easy to replace cartridge unit with closed airless system, minimises risk of cross infection providing convenient and safe pod replacement.
- Interchangeable coloured badges clearly identify the product and the use application areas.
- Two dispenser settings, high or low, give an accurate volume of product everytime.
- The patented anti-drip pump, pulls back excess product to prevent drops and clogs, minimising slip hazard risks and product wastage.
- Hidden lock provides peace of mind, especially for dispensers located in public areas.
